Blood Synergy - App Overview

Last updated: October 4, 2026

App Store status: Version 1.0 - Waiting for Review

What it is

Blood Synergy is a mobile wellness app for tracking lab markers, viewing educational insights, finding practitioners, and using an AI chatbot for lab-related questions. Content is educational only and is not medical advice.

Mobile app	Flutter (iC
Backend API	PHP | ht
Email / OTP	SendGrid
In-app web content	WebView

App Store review

App name	BloodSyn
Version	1.0
Status	Waiting fo
Demo email	demo@gr
Demo password	demo123

Suggested reviewer path:

- Log in with the demo account above
- Accept disclaimer (if shown)
- Home -> categories / lab panels
- Practitioners -> doctor detail
- Profile -> Privacy Policy, FAQs, Delete account

WebView screens (3)

These screens load web content inside the Flutter app via WebView:

1. Chatbot

Where: H
URL: http
Note: auth

2. Disclaimer

Where: A
URL: http

3. Privacy Policy

Where: P
URL: http
Note: pag

Additional note: Terms & Conditions (Profile / signup) also renders HTML in a WebView via the term-condition endpoint.

Main native features (Flutter)

- Splash -> Login / Signup (email OTP via SendGrid before register)
- Forgot password (email OTP via SendGrid)
- Home dashboard with lab categories
- Lipid / lab panels, reports, statistics
- Practitioners list and doctor detail
- Profile, edit profile, change password, FAQs (in-app), logout, delete account
- Push notification preference (local toggle)

Backend and email

- API base: https://web.blood-synergy.com/api/
- Language: PHP
- Auth: Customer login/register with bearer token for protected routes
- SendGrid: signup verification OTP and password-reset OTP emails

Privacy and compliance notes (for reviewers)

- Privacy policy URL: https://web.blood-synergy.com/privacy-policy
- Account deletion: Profile -> Delete account
- No in-app purchases or subscriptions in the iOS app
- Declared as not a regulated medical device (educational / wellness tracking)
- Camera / photo library access: optional profile photo and lab image upload only
